Additional information:

Due to the hygroscopic nature of the powder, loss on drying may change over time. Keep container well closed and protected from moisture.  
We hereby confirm that no class 1, class 2 and class 3 solvent, cf. ICH Q3C Guideline for Residual solvents, is used in the manufacturing of this product.

a) Not routinely tested. The identification is ensured through strict control of the manufacturing process.

b) Determined on 6%w/v solution and calculated on the dried substance.

c) Calculated on dried substance.

I hereby certify that the above information is authentic and accurate. This technical batch of DEAE-Dextran has been manufactured in full compliance with the above mentioned specifications.
